How has your work with NCSEA prepared you for Board service?

Relationships and Network is a critically important part of the success I have found in Child Support- and within NCSEA.

Participating in Committee work helped me use my Child Support expertise and knowledge to help grow the NCSEA community, through the Membership Committee. I enjoyed the “roll the sleeves up” part of committee and association work, and am ready to lend a hand wherever needed.

New member Board members help NCSEA grow with new ideas, and contribute to the growth of its members. It takes many helpful hands to support this organization! I want to help!

The child support community - and NCSEA as a body - is comprised of diverse individuals and entities, all dedicated to the child support mission, but with very diverse points of view, policies, and processes. What do you see as the role of the Board in representing those diverse voices and perspectives in shaping the future of child support?

It is important to continue to seek suggestions for workshop and plenary topics from the membership- allowing members to recommend topics that describe what they see out in the service delivery spaces, creates opportunity for a diverse topics, speakers and inclusion.

Allowing members to recommend topics- whether they have a speaker or presentation in mind or not- assist NCSEA to seek topics at top of mind or the case managers who are seeing first hand what they need in the field.

Thought provoking topics and speakers and thought leadership should be the focus of all NCSEA conferences and Web Talks- engaging its viewers in thinking outside the box and with improving the outcomes for families.
