How has your volunteer work with NCSEA prepared you for the commitment of Board service?

Volunteer work: Created a Communications Roadmap; continued work with NCSEA On Location podcasts and social media posting; updated the NCSEA website with a 'For Child Support Professionals' interactive map including child support program, tribal, SNAP, housing, and TANF information; created an infographic to promote On Location podcasts to all Directors; created a national parentage website (Parentage4me.org)

The child support community - and NCSEA as a body - is comprised of diverse individuals and entities, all dedicated to the child support mission, but with very diverse points of view, policies, and processes.

What do you see as the role of the Board in representing those diverse voices and perspectives in shaping the future of child support?

My goal as a board member has always been to advance the child support program goals, policies and practices according to the cumulative voice of the members. Visioning for the future of the program has been a passion of mine and speaks to the conversations and committees I give my time and attention to. I love a good vigorous debate and genuinely feel like there are great changes right around the corner for our program.
